Independent Auditors' report on review of condensed consolidated interim financial information

To the Shareholders of RAK Properties P.J.S.C.

Introduction

We have reviewed the accompanying 30 June 2019 condensed consolidated interim financial information of RAK Properties P.J.S.C ("the Company") and its subsidiaries ("the Group"), which comprises:

- the condensed consolidated statement of financial position as at 30 June 2019;
- the condensed consolidated statement of profit or loss for the three month and six month periods ended 30 June 2019;
- the condensed consolidated statement of profit or loss and other comprehensive income for the three month and six month periods ended 30 June 2019;
- the condensed consolidated statement of changes in equity for the six month period ended 30 June 2019;
- the condensed consolidated statement of cash flows for the six month period ended 30 June 2019; and
- notes to the interim financial information.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34 'Interim Financial Reporting'. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 30 June 2019 condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34, 'Interim Financial Reporting'.

Other matter

The condensed consolidated interim financial information as at and for the six month period ended 30 June 2018 and the consolidated financial statements for the year ended 31 December 2018 were reviewed and audited respectively by another auditor who expressed an unmodified review conclusion on the condensed consolidated interim financial information as at and for the six month period ended 30 June 2018 on 2 August 2018 and an unmodified opinion on the consolidated financial statements for the year ended 31 December 2018 on 14 February 2019.

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information
for the six month period ended 30 June 2019 (unaudited)

1 Reporting entity

RAK Properties P.J.S.C. ("the Company") is a public joint stock company established under Emiree Decree No. 5 issued by the Ruler of the Emirate of Ras Al Khaimah on 16 February 2005 and commenced its operations on 2 June 2005. The Company is listed in the Abu Dhabi Securities Exchange, UAE. The registered office of the Company is P.O. Box 31113, Ras Al Khaimah, UAE.

The condensed consolidated interim financial information as at and for the six month period ended 30 June 2019 ("the current period") comprises the Company and its subsidiaries (collectively referred to as "the Group").

Details of the Company's subsidiaries as at 30 June 2019 are as follows:

<u>Name of subsidiary</u>	<u>Country of incorporation</u>	<u>Proportion of ownership interest</u>
RAK Properties International Limited	United Arab Emirates	100%
RAK Properties Tanzania Limited	Tanzania	100%
Dolphin Marina Limited	Tanzania	100%

RAK Properties Tanzania Limited, Tanzania, is a subsidiary of RAK Properties International Limited and Dolphin Marina Limited, Tanzania, is a subsidiary of RAK Properties Tanzania Limited, Tanzania.

The principal activities of the Group are investment in and development of properties, property management and related services.

2 Basis of preparation

The condensed consolidated interim financial information for the six month period ended 30 June 2019 have been prepared in accordance with IAS 34 'Interim financial reporting'. The condensed consolidated interim financial information should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2018, which have been prepared in accordance with International Financial Reporting Standards ("IFRS") and the requirements of UAE Federal Law No. (2) of 2015.

Changes to significant accounting policies are described in note 3.1.

3 Significant accounting policies

Except for the changes in accounting for leases resulting from adoption of IFRS 16, the accounting policies adopted in the preparation of the condensed consolidated interim financial information are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018. The Group has adopted IFRS 16 from 1 January 2019 using the modified retrospective approach and therefore the comparative information has not been restated and continues to be reported under IAS 17 and IFRIC 4.

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information (*continued*)
for the six month period ended 30 June 2019 (*unaudited*)

3 Significant accounting policies

3.1 Change in significant accounting policies

(i) IFRS 16 Leases

Policy applicable from 1 January 2019

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Group has the right to direct the use of the asset if either:
 - the Group has the right to operate the asset; or
 - the Group designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

a) As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information (*continued*)
for the six month period ended 30 June 2019 (*unaudited*)

3 Significant accounting policies (continued)

3.1 Change in significant accounting policies (continued)

(i) IFRS 16 Leases (continued)

a) As a lessee (continued)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

b) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers, substantially, all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

If an arrangement contains lease and non-lease components, the Group applies IFRS 15 to allocate the consideration in the contract.

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information (*continued*)
for the six month period ended 30 June 2019 (*unaudited*)

3 Significant accounting policies (continued)

3.1 Change in significant accounting policies (continued)

(i) IFRS 16 Leases (continued)

b) As a lessor (continued)

The accounting policies applicable to the Group as a lessor in the comparative period were not different from IFRS 16.

Based on management's assessment, the application of IFRS 16 – *Leases* does not have a material impact on the condensed consolidated interim financial information as a lessor or as a lessee and hence, the Group did not make any adjustments in this regard.

(ii) IFRS 9 Financial Instruments

During the previous year, the Group had adopted IFRS 9, which was applicable from 1 January 2018. The following table summarises the impact of transition to IFRS 9 on impairment loss on opening balances as of 1 January 2018:

	31 December 2017 AED'000 (As previously reported)	Impact of re-measurement under IFRS 9 AED'000	1 January 2018 AED'000 (Restated)
Impairment loss on:			
Trade and other receivables	(3,970)	(17,651)	(21,621)

Further, the equity securities represent investments that the Group intends to hold for the long term for strategic purposes. As permitted by IFRS 9, the Group designated these investments at the date of initial application as measured at FVOCI. On transition to IFRS 9, an allowance for impairment recorded on available for sale assets of AED 330.33 million was recognized as an increase in opening retained earnings and a decrease in cumulative changes in fair value reserve as at 1 January 2018.

4 Use of estimates and judgments

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing the condensed consolidated interim financial information, the significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2018 except for new significant judgement and key source of estimation uncertainty related to application of IFRS 16 which are described in note 3.1.

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information (*continued*)
for the six month period ended 30 June 2019 (*unaudited*)

4 Use of estimates and judgments (continued)

The Group has an established control framework with respect to the measurement of fair values, and management has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period in which the change has occurred.

5 Financial risk management

The Group's activities potentially expose it to a variety of financial risks: market risk (including currency risk, price risk, cash flow and fair value interest rate risk), credit risk and liquidity risk.

The condensed consolidated interim financial information does not include all financial risk management information and disclosures required in the annual consolidated financial information, and should be read in conjunction with the Group's annual consolidated financial statements as at 31 December 2018. The Group's financial risk management objectives and policies are consistent with that disclosed in the consolidated financial statements as at and for the year ended 31 December 2018.

6 Property and equipment

Additions, disposal and depreciation

During the six month period ended 30 June 2019, the Group has acquired property and equipment and made additions amounting to AED 65.9 million (*six month period ended 30 June 2018: AED 55.9 million*).

There was no disposal of property and equipment during the current period (*six month period ended 30 June 2018: Nil*).

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information (*continued*)
for the six month period ended 30 June 2019 (*unaudited*)

6 Property and equipment (continued)

Additions, disposal and depreciation (continued)

Depreciation of property and equipment for the current period amounted to AED 7.7 million (*six month period ended 30 June 2018: AED 7 million*).

7 Investment properties

	AED'000	AED'000
	(Unaudited)	(Audited)
In UAE	2,581,902	2,581,902
	=====	=====

The Government of Ras Al Khaimah has granted certain plots of land with an aggregate area of 67 million square feet on the condition that these lands undergo development.

The Group has accounted for the portion of land granted as deferred Government grant at an aggregate value of AED 571 million in 2011 with a corresponding increase to investment properties and trading properties under development. Furthermore, during 2016, an amount of AED 85.8 million was accounted as fair value increase (non cash transaction) pertaining to the above land granted by Government and deferred Government grant increased to AED 657 million. This deferred Government Grant will be released on the fulfilment of the conditions stipulated by the Government, since then management has released AED 51 million to the consolidated statement of profit or loss.

During the previous year, the Group reversed the Government Grant to the extent of AED 9.1 million on account of decrease in fair valuation of the land.

The management does not consider the fair value of investment properties for the period ended 30 June 2019 to be significantly different from the fair value as at 31 December 2018. Fair valuation of investment properties was conducted by an independent external valuer as at 31 December 2018.

15 Statutory reserve

In accordance with UAE Federal Law No. (2) of 2015 and the Company's Articles of Association, 10% of net profit for the year is required to be transferred to statutory reserve till the reserve reaches 50% of Company's paid up share capital. The reserve is not available for distribution except in the circumstances stipulated by the law. No transfer was made to statutory reserve for the year ended 31 December 2018 as the balance in the reserve has reached 50% of Company's paid up share capital.

16 General reserve

In accordance with the Company's Articles of Association, 10% of the net annual profit is transferred to the general reserve. The transfer to general reserve shall cease by decision of the ordinary general meeting as recommended by the Board of Directors or if general reserve reaches 50% of the Company's paid-up share capital. General reserve shall be used for the purposes decided by the ordinary general meeting upon the suggestion of the Board of Directors.

17 Dividends

- (i) At the Annual General Meeting (AGM) held on 17 March 2018, the shareholders approved a cash dividend of 6% for the year ended 31 December 2017, which was proposed by the Board of Directors.
- (ii) At the Annual General Meeting (AGM) held on 24 March 2019, the shareholders approved Board of Directors' remuneration amounting to AED 4 million for the year ended 31 December 2018 *(31 December 2017: AED 5.3 million)*.

Notes to the condensed consolidated interim financial information *(continued)*
for the six month period ended 30 June 2019 *(unaudited)*

19 Borrowings (continued)

The Group has obtained overdraft facility of AED 450 million from commercial banks. Interest on overdraft is computed at 0.50% over the fixed rate up to the fixed deposit amount, and overdraft balance exceeding the deposit balance will be charged at 3 months EIBOR + 3.20% per annum.

The overdraft facility of the Group is secured by:

- Lien over fixed deposit for AED 350 million held with the bank in the name of the borrower (refer note 13);
- Undertaking to deposit all sale proceeds from the sale of properties in Mina Al Arab project in the overdraft account; and
- Undertaking to cover any excess over the sanctioned facilities from the Company's own sources.

The details of the long term bank loans, including terms of repayment, interest rate and securities provided are set out in the consolidated financial statements of the Group for the year ended 31 December 2018. The long term bank loans availed during the current period are on similar terms to those availed as of 31 December 2018.

The bank borrowing agreements ("Agreements") contain certain restrictive covenants including maintaining Debt to EBITDA ratio. During the previous year, the Group did not comply with certain covenants mentioned in those agreements and accordingly the non-current portion of the borrowings was classified as current liabilities as at 31 December 2018, although, subsequent to 31 December 2018 the Group obtained a waiver letter from these two lenders for non-compliance with these covenants. These borrowings continue to be classified as current liabilities as at 30 June 2019.

Approved and contracted	942,881	804,800
	=====	=====

25 Fair value measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

RAK Properties P.J.S.C. and its subsidiaries

Notes to the condensed consolidated interim financial information (*continued*)
for the six month period ended 30 June 2019 (*unaudited*)

25 Fair value measurements (continued)

Fair value of financial instruments carried at amortised cost

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the condensed consolidated financial information approximate their fair values.

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair values of financial and non-financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the audited annual consolidated financial statements for the year ended 31 December 2018.

Fair value measurements recognised in the condensed consolidated statement of financial position

The following table provides an analysis of financial and non-financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	Level 1 AED '000	Level 2 AED '000	Level 3 AED '000	Total AED '000
