**REPORT ON REVIEW OF INTERIM CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS
TO THE SHAREHOLDERS OF RAK PROPERTIES P.J.S.C.**

Introduction

We have reviewed the accompanying interim condensed consolidated statement of financial position of RAK Properties P.J.S.C. (the "Company") and its subsidiaries (the "Group") as at 30 September 2023 and the related interim condensed consolidated income statement, interim condensed consolidated statement of comprehensive income for the nine-month periods then ended, interim condensed consolidated statement of changes in equity and interim condensed consolidated statement of cash flows for the nine-month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

Other matter

The interim condensed consolidated financial statements for the nine-month period ended 30 September 2022 were reviewed by another auditor who expressed an unmodified conclusion on 05 November 2022 and the consolidated financial statements for the year ended 31 December 2022 were audited by another auditor who expressed an unqualified opinion on 11 February 2023.

Notes to the interim condensed consolidated financial statements
For the nine-month period ended 30 September 2023 (Unaudited)

1 Corporate information

RAK Properties P.J.S.C. (the "Company") is a public joint stock company established under Emiree Decree No. 5 issued by the Ruler of the Emirate of Ras Al Khaimah on 16 February 2005 and commenced its operations on 2 June 2005. Subsequently, the Company was registered as a Public Joint Stock Company in accordance with the provisions of the UAE Federal Law No. (2) of 2015 (replaced with UAE Federal Law No. (32) of 2021). The Company is listed in the Abu Dhabi Securities Exchange, United Arab Emirates ("UAE"). The registered office of the Company is P.O. Box 31113, Ras Al Khaimah, UAE.

The interim condensed consolidated financial statements as at and for the nine-month period ended 30 September 2023 ("the current period") comprises the Company and its subsidiaries as reflected in note 2.1 below (collectively referred to as "the Group").

The principal activities of the Group are investment in and development of properties, property management, hospitality and related services.

The interim condensed consolidated financial statements were authorised for issue on 01 November 2023 by the Board of Directors.

2 Basis of preparation

2.1 Statement of compliance

The interim condensed consolidated financial statements of the Group for the nine-month ended 30 September 2023 has been prepared in accordance with International Accounting Standard ("IAS") 34: *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards (IFRS). The same accounting policies, methods of computation, significant accounting judgments and estimates and assumptions are followed in these interim condensed consolidated financial statements as compared with the most recent annual consolidated financial statements, except for the new standards and amendments adopted during the current period as explained in note 2.3.

The interim condensed consolidated financial statements have been prepared in United Arab Emirates Dirhams (AED), which is the Company's functional and presentation currency, and all values are rounded to the nearest thousand except where otherwise indicated. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

The interim condensed consolidated financial statements have been prepared on a historical cost basis, except for investment properties, investment properties under development and investments, which are measured at fair value.

The preparation of interim condensed consolidated financial statements on the basis described above requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which for the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Results for the nine-month period ended 30 September 2023 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2023.

RAK Properties P.J.S.C. and its subsidiaries
Notes to the interim condensed consolidated financial statements
For the nine-month period ended 30 September 2023 (Unaudited) (continued)

2 Basis of preparation (continued)

2.1 Statement of compliance (continued)

Basis of consolidation

The interim condensed consolidated financial statements comprise the financial statements of the Company and the entities controlled by the Company (its subsidiaries) as of 30 September 2023. Control is achieved where all the following criteria are met:

- (a) the Company has power over an entity (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- (b) the Company has exposure, or rights, to variable returns from its involvement with the entity; and
- (c) the Company has the ability to use its power over the entity to affect the amount of the Company's returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the period are included in the interim condensed consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Subsidiary

A subsidiary is fully consolidated from the date of acquisition or incorporation, being the date on which the Group obtains control, and continues to be consolidated until the date when such control ceases. The financial statements of the subsidiary are prepared for the same reporting period as the Company, using consistent accounting policies. All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated in full.

Details of the Company's subsidiaries are as follows:

For the nine-month period ended 30 September 2023 (Unaudited) (continued)

2 Basis of preparation (continued)

2.2 Significant accounting judgments, estimates and assumptions

The preparation of these interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures and the disclosure of contingent liabilities at the reporting date. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the assets or liabilities affected in future periods.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the interim condensed consolidated financial statements:

(i) Revenue from contracts with customers

The Group applied the following judgements that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Determining the timing of revenue recognition on the sale of property

The Group has evaluated the timing of revenue recognition on the sale of property based on a careful analysis of the rights and obligations under the terms of the contract. The Group has concluded that contracts relating to the sale of completed property are recognised at a point in time when control transfers.

For contracts relating to the sale of property under development, the Group recognises the revenue over a period of time as the Group's performance does not create an asset with alternative use. Furthermore, the Group has an enforceable right to payment for performance completed to date. It has considered the factors that indicate that it is restricted (contractually or practically) from readily directing the property under development for another use during its development. In addition, the Group is, at all times, entitled to an amount that at least compensates it for performances completed to date. In making this determination, the Group has carefully considered the contractual terms as well as local legislations.

The Group has determined that the input method is the best method for measuring progress for these contracts because there is a direct relationship between the costs incurred by the Group and the transfer of goods and services to the customer.

Principal versus agent considerations – services to tenants

The Group arranges for certain services provided to tenants of investment property included in the contract the Group enters into as a lessor. The Group has determined that it controls the services before they are transferred to tenants, as it has the ability to direct the use of these services and obtain the benefits from them. In making this determination, the Group has considered that it is primarily responsible for fulfilling the promise to provide these specified services as it directly deals with tenants' complaints, and it is primarily responsible for the quality or suitability of the services. In addition, the Group has discretion in establishing the price that it charges to the tenants for the specified services.

Therefore, the Group has concluded that it is the principal in these contracts. In addition, the Group has concluded that it transfers control of these services over time, as services are rendered by the third-party service providers, because this is when tenants receive and, at the same time, consume the benefits from these services.

Consideration of significant financing component in a contract

For contracts involving the sale of property, the Group is entitled to receive an initial deposit. The Group concluded that this is not considered a significant financing component because it is for reasons other than the provision of financing to the Group. The initial deposits are used to protect the Group from the other party failing to adequately complete some or all of its obligations under the contract where customers do not have an established credit history.

2.2 Significant accounting judgments, estimates and assumptions (continued)

Judgements (continued)

(ii) Cost to complete the projects

The Group estimates the cost to complete the projects in order to determine the cost attributable to revenue being recognised. These estimates include cost of design and consultancy, construction, potential claims by contractors as evaluated by the project consultant and the cost of meeting other contractual obligations to the customers.

(iii) Leases - Property lease classification – the Group as lessor

The Group has entered into commercial and residential property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all of the fair value of the commercial property, that it retains substantially all the risks and rewards incidental to ownership of this property and accounts for the contracts as operating leases.

(iv) Classification of properties

In the process of classifying properties, management has made various judgments. Judgment is needed to determine whether a property qualifies as an investment property, property and equipment and/or trading property. The Group develops criteria so that it can exercise that judgment consistently in accordance with the definitions of investment property, property and equipment and trading property. In making its judgment, management considered the detailed criteria and related guidance for the classification of properties as set out in IAS 2, IAS 16 and IAS 40, in particular, the intended usage of property as determined by the management. Trading properties are grouped under current assets, as intention of the management is to sell it within one year from the end of the reporting date.

Key sources of estimation uncertainty

The key assumptions concerning future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the interim condensed consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Valuation of investment properties and investment properties under development

The fair value of investment properties is determined by independent real estate valuation experts using recognised valuation methods. These methods comprise the sales comparable method and discounted cash flow method. The discounted cash flow method requires the use of estimates such as future cash flows from assets (comprising of selling and leasing rates, future revenue streams, construction costs and associated professional fees, and financing cost, etc.), targeted internal rate of return and developer's risk and targeted profit. These estimates are based on local market conditions existing at the end of the reporting period. Under the income capitalisation method, the income receivable under existing lease agreements and projected future rental streams are capitalised at appropriate rates to reflect the investment market conditions at the valuation dates. The Group's undiscounted future cash flows analysis and the assessment of expected remaining holding period and income projections on the existing operating assets requires management to make significant estimates and judgements related to future rental yields and capitalisation rates.

2 Basis of preparation (continued)

2.2 Significant accounting judgments, estimates and assumptions (continued)

Estimation of net realisable value for trading properties and trading properties under development

The Group's management reviews the trading properties and trading properties under development to assess impairment, if there is an indication of impairment. In determining whether impairment losses should be recognised in the profit or loss, the management assesses the current selling prices of the property units and the anticipated costs for completion of such property units for properties which remain unsold at the reporting date. If the current selling prices are lower than the anticipated total cost at completion, an impairment provision is recognised for the identified loss event or condition to reduce the cost of development properties to its net realisable value.

Calculation of expected credit loss allowance

The Group assesses the impairment of its financial assets based on the ECL model. Under the expected credit loss model, the Group accounts for expected credit losses and changes in those expected credit losses at the end of each reporting period to reflect changes in credit risk since initial recognition of the financial assets. The Group measures the loss allowance at an amount equal to lifetime ECL for its financial instruments. When measuring ECL, the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other. Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements. Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Impairment of property and equipment and capital work in progress

The Group reviews its property and equipment and capital work in progress to assess impairment, if there is an indication of impairment. In determining whether impairment losses should be recognised in the profit or loss, the Group makes judgements as to whether there is any observable data indicating that there is a reduction in the carrying value of property and equipment or capital work in progress. Accordingly, provision for impairment is made where there is an identified loss event or condition which, based on previous experience, is evidence of a reduction in the carrying value of property and equipment or capital work in progress.

Useful lives of property and equipment

The Group's management determines the estimated useful lives of its property and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

Valuation of unquoted investments

Valuation of unquoted investments is normally based on one of the following:

- Recent arm's length market transactions;
- The expected cash flows discounted at current rates applicable for the items and with similar terms and risk characteristics; or
- Other valuation models

The determination of the cash flows and discount factors for unquoted equity investments requires significant estimation. The Group calibrates the valuation techniques periodically and tests them for validity using either prices from observable current market transactions in the same instrument or from other available observable market data.

2.3 New or revised standards and interpretations

New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2022, except for the adoption of new standards and interpretations effective as of 1 January 2023. The Group has not early adopted any standard, interpretation or amendment that has been issued that is not yet effective.

- IFRS 17 Insurance Contracts
- Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction (Amendments to IAS 12).
- Definition of Accounting Estimates (Amendments to IAS 8)
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)

This amendment did not have a significant impact on these interim condensed consolidated financial statements, and therefore, the disclosures have not been made.

Standards, amendments and interpretations to existing Standards that are not yet effective and have not been adopted early by the Group

- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16)
- Non-current liability with covenants – Amendments to IAS 1 and Classification of Liabilities as Current and Non-current (Amendments to IAS 1)
- Sale or Contribution of Assets between an Investor its Associates or Joint Venture (Amendments to IFRS 10 and IAS 28)

These standards, amendments and interpretations are not expected to have a significant impact on the interim condensed consolidated financial statements in the period of initial application and therefore no disclosures have been made.

3. Property and equipment

Additions, disposal and depreciation

During the nine-month period ended 30 September 2023, the Group has made additions amounting to AED 157,105 thousand (nine-month period ended 30 September 2022: AED 185,387 thousand).

The Group is currently constructing a hospitality project on Mina Al Arab Island. The project is expected to be completed during financial year 2023 and the carrying amount as at 30 September 2023 is AED 836,101 thousand (31 December 2022: AED 685,543 thousand).

The amount of borrowing costs capitalised during the nine-month period ended 30 September 2023 is AED 18,549 thousand (30 September 2022: AED 14,547 thousand) relating to construction of hotel properties. The weighted average rate used to determine the amount of borrowing costs eligible for capitalisation was 8.19% (30 September 2022: 4.56%), which is the effective interest rate of the specific borrowing.

Depreciation of property and equipment for the nine-month period ended 30 September 2023 amounted to AED 27,083 thousand (30 September 2022: AED 23,934 thousand).

The Group has obtained an overdraft facility of AED 590,000 thousand (2022: AED 540,000 thousand) from commercial banks. Interest on bank overdrafts, which is secured by term deposit is 0.25% to 0.5% per annum over such term deposit rates, which are used as security as overdraft balance. Further, for unsecured bank overdrafts, interest is computed at a fixed rate + 3 months EIBOR.

The overdraft facilities of the Group are secured by:

- Lien over term deposit for AED 400,000 thousand held with the bank in the name of the borrower (note 10);
- To route funds 1.5 times of the net clean limit utilised under the overdraft. (31 December 2022: the net clean limit utilized was AED 56,596 thousand).

The details of the long-term bank loans, including terms of repayment, interest rate are set out in the consolidated financial statements of the Group for the year ended 31 December 2022.

The bank borrowing agreements ("Agreements") contain certain restrictive covenants including maintaining Debt to EBITDA ratio. The Group complied with the annual bank covenants as at 31 December 2022. Accordingly, the borrowings continue to be presented as non-current, based upon the terms of repayment.

Term loans are secured against the following:

- Legal mortgage of land and buildings of specific properties included in property and equipment, investment properties, investment properties under development, trading properties under development and trading properties.
- Assignment of insurance over the mortgaged properties in favour of the bank.
- Assignment of guarantees from the main contractor/construction contracts under the project duly assigned in favour of the bank.
- Assignment of revenues from the hotel projects financed by the banks.
- Assignment of revenues from sale of apartments and rental revenues from the apartments financed by the bank.
- Pledge of project account opened with the bank for receiving the project receipts from buyers.

	30 September 2023 AED'000 (Unaudited)	31 December 2022 AED'000 (Audited)
Due to a related party - trade payables (note 13)	5,046	31,315

Outstanding balances at the period end arise in the normal course of business, are unsecured, interest-free and settlement occurs generally in cash.

17. Earnings per share

The calculation of earnings per share for the nine-month period ended 30 September 2023 is based on net profit of AED 105,169 thousand (30 September 2022: net profit of AED 27,548 thousand), divided by the weighted average number of shares of 2,000,000 thousand (30 September 2022: shares of 2,000,000 thousand) outstanding period.

18. Contingent liabilities and commitments

Commitments relating to the property development are as follows:

	30 September 2023 AED'000 (Unaudited)	31 December 2022 AED'000 (Audited)
Approved and contracted	<u>467,939</u>	<u>370,659</u>

The above commitments represent the value of contracts entered into by the Group including contracts entered for construction of properties, net of invoices received, and accruals made at that date.

19. Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, differences can arise between book values and the fair value estimates. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or requirement to materially curtail the scale of its operation or to undertake a transaction on adverse terms.

Fair value of financial instruments carried at amortised cost

Management considers that the carrying amounts of financial assets and financial liabilities recognised at amortised cost in the condensed consolidated financial information approximate their fair values.

Valuation techniques and assumptions applied for the purposes of measuring fair value.

The fair values of financial and non-financial assets and financial liabilities are determined using similar valuation techniques and assumptions as used in the audited annual consolidated financial statements for the year ended 31 December 2022.

19. Fair values of financial instruments (continued)

Fair value measurements recognised in the interim condensed consolidated statement of financial position.

The following table provides an analysis of financial and non-financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

21. Significant events

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (Corporate Tax Law or the Law) to enact a Federal corporate tax (CT) regime in the UAE. The CT regime is effective from 1 September 2023 and accordingly, it has an income tax related impact on the consolidated financial statements for accounting periods beginning on or after 1 June 2023.

The Cabinet of Ministers Decision No. 116 of 2022 specifies the threshold of income over which the 9% tax rate would apply and accordingly, the Law is now considered to be substantively enacted from the perspective of corporate - Income Taxes. A rate of 9% will apply to taxable income exceeding AED 375,000 and a rate of 0% will apply to taxable income not exceeding AED 375,000 and a rate of 0% on qualifying income of free zone entities.

The Group will be subject to taxation commencing 1 January 2024. Based on the above, the Group assessed the deferred tax implication and concluded it is not expected to be significant as of and for the nine-month period ended 30 September 2023. In addition, certain other cabinet decisions are pending as on the date of these financial statements. The Company will continue to assess the impact of these pending cabinet decisions on deferred taxes as and when finalised and published.
